

-Chad Moser

-Chair / Director of Flight Operations since 2011

-When my Son Steven came back from his first trip to Andros. He was so full of energy and excitement about trying to help these people out in Andros. How they didn't have anything. That their houses were basically open shacks that leaked when it rained. He asked me, since I fly couldn't I do more to really help these people. Since it was so difficult to get things in the Islands. My first scout trip there was with my Pastor to get names and things we needed for the Christmas gift delivery. This was very touching to me. I could really see how I and the other pilots I know. Could really be of service here. So we created Blessings From D-Skies. The name came about from the little guy from Fantasy Island. "Boss D-plane, D-plane"

-Steven Moser

-Director of Operations at Large since 2011

-I am a sophomore at Kennesaw State University currently majoring in Mechatronics with a minor in Marketing. I have been working with Blessings since we started back in 2011 after being inspired from previous mission trips I had taken to Andros. I saw how little people focused on helping this area in the Bahamas and have made strides to make a difference in their community and the communities around me. through this organization.

-Morgan Collis

-Secretary since 2014

-Outside of the company I work for Chick-Fil-A. Blessings From D-Skies has impacted who I am tremendously in the last year and a half. I go to Georgia Highlands and I am studying Physical Therapy. I hope to one day work with veterans transitioning into prosthetics. I've always wanted to help people, And Blessings has shown me how to make a huge change in the lives of many people at one time. Through working with these amazing people I have learned to appreciate what God has given me and to open my eyes and fully understand that I am only a small part of a huge plan.

-Brooks Gayton

-Director of Operations for Raisin' Canes since 2015

-I am blessed to serve as the Director of Operations for the Raisin' Canes Program at Blessings from D-Skies. My goal is to provide the children of our local community the opportunity to participate in athletics without finances preventing them from having access. I have always wanted to share my love of athletics with children, and use it to teach them life lessons that will help them grow into model citizen-leaders and help our community continue to be an awesome

-Geanna Bethel

-ANDROS Boys and Girls Club Representative

-On the 29th day of May 1997 Joan Bethel and Ian Horton was greeted by a beautiful baby girl, one that they can call their own. Geanna Bethel was the name given to me, I grew up on the island of Andros, in a small settlement called Stadiard Creek. I am the second child out of four children. Through the years I've attended many schools which includes; Staniard Creek Primary, Stafford Creek Primary, Thelma Gibson Primary, L. W. Young Jr. High, C. H. Reeves Jr. High and C. V. Bethel Senior High. Currently I am 19 years of age attending the College of the Bahamas taking up Math Education. In the year of 2010, I came across a group of individuals that impacted my life greatly. The name of the group is Blessing's in the Sky's. That summer of 2010 the team of Blessings in the Sky's gathered the children of the community and worked with each of them, helping them develop life skills. I haven't been back to Andros since that summer but I still keep in contact with some of the members from the group. This coming December 2016, I've decided to become apart of the team of Blessings in the Sky's to give back to the community. This decision was inspired by the admiration that I have for the team. The way they have impacted me in such a positive way. I want to be that example to someone as they have been to me.

**Our core volunteer group thus far has come from our local church, Church at the Well, in Cartersville, GA also Cartersville High School FCA / BETA Clubs, Raisin' Canes but we are working in conjunction with other churches/schools within the community and reaching out to groups around the country. For us to be able to accomplish more.
